

Seussical Science Imaginative Science for Grades PreK – K

Discover the science of Dr. Seuss as we investigate his silly contraptions and imaginative creatures. Here's your peek at the week:

DAY 1: Listening for Who-ville. Do real things live in small places? How do we hear? Campers will explore the itty bitty parts of our world.

DAY 2: Walking on Oobleck. What animals have feet? Why don't we have three? Then they will examine the many states of Oobleck, it is a solid? Or a liquid?

DAY 3: Feast with Sam-I-am. What makes those eggs green? Will green eggs taste the same as regular eggs? Why is the egg shell shaped the way that it is?

DAY 4: Plant a Truffula tree for the Lorax. Learn the importance of the 3 Rs (Reduce Reuse and Recycle) as well as taking care of our environment.

DAY 5: Explore the world of thinks. Explore gears, ramps, tops and come up with inventions of their own! Who can get a marble to fly the farthest? What about the tallest ramp?
